NURSE A SCHOOL ACTIVITIES

This month we are highlighting the various efforts HFN has made through the Nurse A School program to impact communities across partnering states.

When two or more organizations come together to achieve a common goal, the chance of achieving that goal becomes more realistic. These goals may also occur in a timely manner. Health For Nigeria partnered with

The EME Foundation to educate the female students at Basorun Ojo High School, Ibadan on how to make reusable sanitary pads, menstrual hygiene, menstrual cycle, and other related issues. Sanitary pads were also distributed to each participant.

NURSE A SCHOOL ACTIVITIES

Nurse Ochigbo Grace engaged and educated the students during the assembly gathering in Junior Secondary School Kayarda, Abuja. She discussed causes, symptoms, treatment, and prevention of anxiety disorders. Anxiety disorders are common and can affect any child, regardless of age, grade level, or academic achievement.

During the assembly gathering, Nurse Ochigbo engaged students in physical exercises reminding students about the importance of physical fitness, health promotion and disease prevention.

Nurse Ige is shown here treating a student with a dislocated arm at Basorun Ojoo High School, Ibadan. Health For Nigeria remains committed to improving access to health care for all.

Nurse Eniafe and Nurse Omotosho during the Interhouse Sport Competition at St. Monica's Secondary School, Ondo State served as first responders. Our nurses are equipped with knowledge of emergency care practices. Also, they coordinate the members of the School Health Club to participate in the sport activities.

The School Health Club members at St. Stephen's Grammar School Ondo is seen here representing during the 2023 Interhouse sport.
